Serious cleaning know-how

Cleano range

Save time and safely clean smooth indoor surfaces and windows without the need for buckets and ladders.

Cleano is an innovative new telescopic tool, which has been designed to enable easier, faster and safer cleaning of larger and hard to reach window and flat surfaces. It comes in a range of sizes up to 6m to reach even the highest levels, without the need for buckets and ladders, and uses microfibre cleaning pads to give hygienically clean, smear-free results without the need for chemicals.

It has a built-in hand operated pump system which is completely mechanical, no need for batteries or potentially dangerous trailing wires. This delivers a fine mist directly onto the cleaning surface, minimising water use, and the removable microfibre pad efficiently attracts and holds dirt particles for a fast, thorough clean. The angled, swivel mop head allows easy access to even the trickiest corners.

Key features & benefits

Microfibre
cleaning

Time
saving

Telescopic

No batteries
required

- An easy to use, lightweight and adjustable telescopic handle.
- Micro-spray technology ensures the optimal distribution of fine mist.
- Mechanical so no need for batteries or mains power and wire-free.
- Swivel head system for getting into tight corners.
- Uses microfibre pads for a smear-free finish.
- Fitted with a refillable water reservoir.
- Safer - no need for bucket or ladders.

Review

This revolutionary new system saves time and the unnecessary hassle of using ladders and buckets for safe, quick and effective cleaning, while reducing business downtime and improving the working environment of commercial premises.

User instructions

Cleano is designed to clean any flat surface of any size, vertical, horizontal or incline. Use a glass pad for cleaning indoor glass surfaces and spot pad for tiles and ceramic surfaces. First fill the tank with water and operate the trigger to spray water onto the surface, then clean with the microfibre pad until more water is required.

Related products

Cleano is also available in a hand-held Bambino size, which is ideal for use on smaller surfaces like mirrors, glass or ceramic furniture, stainless steel and tiled areas. Microfibre pad. Spot pad.
