## Baggy Sweeping Set

# Versatile sweeping set with jointed rubber blade and open ended pan with integral bag holder.

The baggy system is designed especially for wet and dry spills in hazardous or non-hazardous situations. The wiper one piece wiper blade as opposed to conventional bristles means debris can be collected and the risk of cross contamination reduced. Once the task is completed the bag at the back can be simply removed and disposed of with minimum effort. The baggy with its rubber lipped frame and one piece handle can be easily sluiced/cleaned ready for the next use. The system also allows the operator to use the bags of choice with the adjustable bag stopper.

## Key features & benefits

Time saving

Light-weight

Easy clean
