Handy wipes

Introducing the new and improved Handy wipes from Robert Scott

A great value, lightweight and disposable multipurpose cleaning wipe, which is perforated so it provides good absorbency and dirt collection.

The improved non-woven cloth performs better as it has a more open, perforated structure making it stronger and more absorbent.

The process of manufacture is called 'hydro entanglement', which gives the cloth its open weave structure, replacing the more 'papery-feel' non-woven cloth.

It has also been tested and meets food contact safe standards.

Key features & benefits

Disposable

Food contact safe

Rinse after use

Use wet or dry

- Material structure creates a great cleaning and absorbent wipe.
- Tested and meets food contact safe standards.
- Hygiene colour coded.
