**BSG AirCare Air
& Surface Purifier**

A chemical-free way to improve air quality, remove odours and germs, and disinfect air and surfaces in washrooms and workplaces.

Bad odours create a negative impression of any room, and even with rigorous cleaning it can be difficult to remove these completely, especially if it's caused by hidden bacteria or sources such as poor drainage.

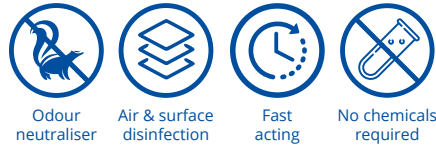

AirCare is a natural solution to destroy odours at source, improve air quality and reduce organic matter both on surfaces and airborne. Using chemical-free UVC light technology, ozone and photoplasma disinfection, it kills airborne respiratory viruses, removes malodours, and destroys bacteria, fungi, algae and more.

The range

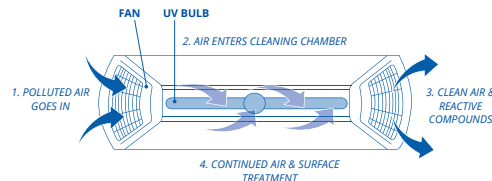

The range consists of the AC10 for small to medium spaces (10-20m³ / up to 3 sources), AC20 for medium spaces (20-30m³ / up to 6 sources), and AC30 for large spaces (30-50m³ / up to 8 sources). For powerful, rapid response cleaning in smaller areas please see the Mini PowerZone.

Code	Model	Size	Qty
104972	AC10	13x41x9cm	1
104973	AC20	13x41x9cm	1
104974	AC30	13x41x9cm	1

Key features & benefits

- Purifies air quality with chemical-free UVC disinfection.
- Eliminates odours and smoke at source to improve air quality.
- Eco-friendly, chemical-free, and saves time and costs.
- Reduces bacteria, viruses, mould, and other micro-contaminants.
- Automated and chemical-free without leaving residue.
- Certified to be safe, proven to be effective.
- Minimal maintenance with simple annual UV lamp change.
- Ideal for washrooms and any space with bad odours.

How to use

It can be used for fixed installations such as wall or ceiling (includes mounting kit) and hard wired. As it's completely automated and chemical-free, it's also maintenance free, only requiring the simple, annual replacement of a UV lamp. Comes with a 3.3m power cable, and plug and one-year warranty.

Where can it be used?

Designed specifically for washrooms and hard to reach areas, it is also effective for animal odour removal, smoke removal, guest rooms, care and nursing homes, waste disposal areas, gymnasiums, changing rooms and more.
