Exel Multipurpose Trolley

A new multipurpose trolley for general housekeeping

A compact cleaning trolley that has been designed with flexibility in mind and packed with useful features to accommodate a wide range of cleaning products.

The Exel trolley can carry both a tub vacuum and mopping equipment and comes equipped with a 45L waste bag and a checklist holder built into the bag cover. The innovative accessory rail which runs around the trolley allows for a wide variety of configurations of the two 7L lockable containers, two handle/equipment holders and rubber-lined hose clip.

The base of the trolley features a wheel groove to keep a vacuum stable while in transit and removable plugs which reveal slots for securing the Buffalo bucket when using the trolley as part of a Kentucky mopping system. Two wheels feature a brake to ensure the trolley only moves when you want it to. The trolley is supplied flat packed and is easy to assemble.

Suitable for catering, offices, public transport, education and general cleaning environments.
